FITTING CHART

N SERIES CROP LIFTERS (BLACK)		J SERIES CROP LIFTERS (BLUE)	
Fits guards longer than 5¾" in length*		**Fits guards shorter than 5¾" in length***	
N – Pulse Crop Lifter	Part# 70060	J – Pulse Crop Lifter	Part# 70062
N – Heavy Duty Crop Lifter	Part# 70050	J – Heavy Duty Crop Lifter	Part# 70052
N – MidCut Crop Lifter	Part# 70180 / 70181	J – MidCut Crop Lifter	Part# 70182
FLEXXIFLOAT™ CROP LIFTERS		**TRIPLE S™ CROP LIFTERS**	
Fits both N & J Series guards		**Fits both N & J Series guards**	

NOTE: on some headers, the existing carriage bolt will require replacement with a specially designed bolt to accommodate the QD™ nut assembly:

Part # 32310	*Grade 8.8 Step bolt designed for MacDon headers with poly skid plate*
Part # 32312	*Grade 8.8 7/16" Carriage bolt tapered to 10mm for MacDon, Case IH and other guards inserted at the bottom*
Part # 32314	*Grade 8.8 10mmx1.5x55mm Carriage bolt for guards that accept a 10mm bolt from the bottom*

John Deere	925F	H145791 (Green)	J	
John Deere	930F	H153719 (Silver)	J	Double Heat-Treated Guard
John Deere	930R	H171031	J	Carburized Guard
John Deere	2320 & 2360 Swathers	E82559	J	Similar to H145791
John Deere	625D/630D/635D/640D	H229540 H229538	N	Same Profile as H213405 (Long) Hex bolt
John Deere	925D/930D/936D	H213405 (Long)	N	70060 not recommended see footnote[4]
MacDon	734			See footnote [7]
MacDon	960	28013	N	See footnote[3] [6]
MacDon (CIH-1042)	962	28013, 345887A1	N	See footnote[3] [6]
MacDon (CIH-2042)	963	28013, 23064, 345887A1	N	See footnote[3] [6]
MacDon (CIH-1052)	972	23064, 345887A1	N	See footnote[3] [6]
MacDon	972 Swather	*Not Available*	N	See footnote[3] [6]
MacDon (CIH-2052)	973 Rigid	118344, 345887A1	N	See footnote[3] [6]
MacDon (CIH-2062)	974 Flex	118344, 345887A1	N	See footnote[3] [6]
MacDon	9220 Swather	*Not Available*	N	See footnote[3] [6]
MacDon	D50/D60	118301 & 2, 18484, 18344	N	Uses Bolt #32310
MacDon	FD70	124338, 124344	N	Uses Bolt #32310
MacDon	FD75	158516	N	Uses Bolt #32310
MacDon	FD2	286315	N	Use the MD2 versions (Painted grey)
Massey	8820	700700845	N	Uses Bolt #32310 / #32312
Massey	885/MD7000/White6400	FQ215DH	N	
Massey	9420/5200 Table	WP66603	N	
Massey	9122	FQ240	N	
Massey	220 Swather/5200 Table	WP1306	N	Use 33060P or FlexxiFloat 250 see footnote[2]
New Holland	Various	86615982,87560324,87702973	N	Uses Bolt # 32312
New Holland	Rigid	Schumacher	J	
Versatile Swather	4025	WP93269, 9705048, SW1605	J	
Versatile	RT490	118301 & 2, 8484, 18344	N	

(1) If guards are less than 5 3/4" from the center of the guard bolt to the tip of the guard, use J series.
(2) Due to limited header angle adjustment.Use Finger # 33060P or FlexxiFloat 250
(3) Caution: some older MacDon tables with older adaptors do not provide sufficient adjustments to use the HighCut Lifter. Especially on combines that do not have a feeder house angle adjustment.
(4) Dividers on JD 930D-936D (especially older models) prevent table from getting close to the ground. Use HD or FlexxiFloat.
(5) Verify guard number. May experience similar issues as other JD Draper users.
(6) Uses Bolt # 32310 with Plastic Skidplates and # 32312 without Skidplates
(7) May require the installation of different guards in the event the header does not have a quick-cut system.
