

Flexifinger FXA SIMPLICITY ROCKS

The Flexifinger® Quicker Picker rotary rock picker attaches to any skid steer or tractor equipped with a universal quick-attach mount and a standard hydraulic flow. Any debris smaller than 2"/5cm will fall between the solid steel bars during the barrel's spinning motion, resulting in more dirt left in the field.

MODEL 400

MODEL 800

Drum length	36" / 91.4 cm	48" / 121.9cm
Drum diameter	30" / 76.2 cm	36" / 91.4cm
Capacity	900 lbs / 408 kg	2000lbs / 907kg
Drive	Direct (Gear)	Direct (Gear)
Spin direction	Counterclockwise	Counterclockwise
Spindle size	3" (7,500 lbs) / 7.6cm (3402kg)	4.5" (20,000 lbs) / 11.4cm (9072kg)
Bars	1" / 25mm solid steel	1" / 25mm solid steel
Back plate	0.75" / 19mm solid steel	0.75" / 19mm solid steel
Rock size	2" – 28" / 5cm-71cm	2" – 34" / 5cm-76cm
Loader ROC	1,660 lbs / 752kg	3,165 lbs / 1442kg
Skid steer size	Less than 60 HP	More than 60 HP
Tractor size	Less than 90 HP	More than 90 HP
Attaches with	Quick-attach plate	Quick-attach plate
Weight	760 lbs / 344kg	1165 lbs / 528kg
Hydraulic flow	Standard flow (7 gal / 26.5ℓ)	Standard flow (7 gal / 26.5ℓ)
Hydraulic hose	0.5"/13mm NPT	0.5" / 13mm NPT
Hydraulic limit	1100psi (f) / 500 psi (r) 76 bar (f) / 34 bar (r)	1100psi (f) / 500 psi (r) 76 bar (f) / 34 bar (r)

The Flexifinger® Quicker Picker is the first rotary-style rock picker designed for skid loader use. Using a universal quick-attach plate, the Flexifinger® Quicker Picker can be mounted on virtually any skid steer or loader.

To clear an area of debris, the operator scoops up the debris and, using the loader's auxiliary hydraulic controls, spins the barrel. This spinning motion causes the debris to collide inside the barrel which knocks off excess soil and dirt. Any soil or debris smaller than 2"/5cm in diameter will fall between the bars, leaving only debris larger than 2"/5cm in the barrel. The Flexifinger® Quicker Picker rotary rock picker is ideal for use in several industries including agricultural, industrial, maintenance, mining, landscaping and forestry.
